

WESTERN KY AREA POPULATION CENTER TRAINING
OSHA 30 HOUR TRAINING

KENTUCKY DAM VILLAGE STATE RESORT PARK
P. O. BOX 69, GILBERTSVILLE, KY 42044

July 14, 15, 16, 17, 18, 2003
Monday, July 14, 2003

Overview of the KY-OSH Program with Injury & Illness Recordkeeping.....8:30 AM (Course #600)
Covers the operations of the KY-OSH Program, including enforcement and voluntary compliance services. Includes Injury and Illness recordkeeping requirements, such as OSH-300 and 301 forms.
Safety and Health Program Management.....10:00 AM (Course #606)
Covers the aspects of an effective Safety and Health Program. Program elements include: creating a culture of safety, management and employee involvement, worksite analysis, hazard prevention and control, and training.
Electrical Safety1:00 PM (Course #609)
Familiarizes participants with electrical standard requirements and the potential hazards associated with electrical installations and equipment. Topics include cord- and plug-connected and fixed equipment, grounding, GFCI, and others.
Lockout/Tagout.....2:30 PM (Course #612)
Covers Kentucky’s version of the lockout/tagout standard. Hazardous energy source control methods associated with equipment, and processes are demonstrated. Topics include training and documentation requirements, hardware, and group lockout procedures.

Tuesday, July 15, 2003

Accident Investigation.....8:30 AM (Course #615)
Topics include evidence collection and evaluation, interview techniques and documentation. Techniques for determining root causes of accidents and Job Safety Analysis will be covered as well as a brief overview of Behavior Based Safety.
Machine Guarding.....10:00 AM (Course #618)
The basis of the course is Subpart O, specifically 29 CFR 1910.212, with safe work practices for common machinery. Also covers woodworking, and safe handling, storage and mounting of abrasive wheels. Topics include operational hazards and guarding requirements.
Personal Protective Equipment.....1:00 PM (Course #621)
Provides guidance for selection and use of personal protective equipment (PPE), and how to perform a hazard assessment of the workplace to determine if any hazards are present that would necessitate the need for PPE. Topics include protection for the head, face, eyes, and feet.
Hazard Communication.....2:30 PM (Course #624)
Explains the requirements related to employees' "Right to Know" regarding hazardous chemicals in the workplace. Topics include written hazard communications program, container labeling, material safety data sheets (MSDS), and employee training.

Wednesday, July 16, 2003

Permit-Required Confined Spaces.....8:30 AM (Course #627)
Covers the requirements for protecting workers from the hazards of permit-required confined space entry. Topics of discussion include atmospheric hazards and monitoring, written programs, entry permits, contractors, training requirements, and rescue.
Noise and Hearing Conservation.....10:00 AM (Course #630)
Includes hearing protectors, engineering and administrative noise reduction controls, audiometric testing, employee training, and recordkeeping requirements. Implementation of an effective hearing conservation program is also covered.
Bloodborne Pathogens for Non-Health Care Workers.....1:00 PM (Course #633)
For employees with non-routine exposure, such as first aid responders. Topics of discussion include written exposure control plan, engineering and work practice controls, universal precautions, personal protective equipment, housekeeping, warning signs and labels, training and recordkeeping.
Introduction to Ergonomics.....2:30 PM (Course #636)
Topics include ergonomic disorders, risk factors, the costs to employers and employees, the proposed ergonomics standard, and elements of an effective ergonomics program. Case studies are used to demonstrate current methods to recognize, evaluate, and control ergonomic hazards.

Thursday, July 17, 2003

Flammable and Combustible Materials.....8:30 AM (Course #639)
Examines the hazards involved with flammable and combustible liquids commonly found in the workplace. Includes storage, handling, and work practices.
Fire Protection & Means of Egress10:00 AM (Course #641)
Introduces participant s to the recognition of potential fire hazards and emergency procedures. Topics include the chemistry of fire, types and effectiveness of extinguishing agents, means of egress, detection and alarm systems, fire brigades, fire prevention plans.
Powered Industrial Trucks and Material Handling.....1:00 PM (Course #644)
Covers the selection and use of gasoline, electric, and LPG powered industrial trucks. Includes battery charging, dock boards, traffic rules, inspection of powered industrial trucks, and associated equipment. Topics also include multi-piece rim wheels, overhead cranes and proper rigging/slings.
Walking and Working Surfaces2:30 PM (Course #647)
Course addresses hazards that could result in a slip, trip, or fall. Also discusses methods to prevent or control such hazards. Course includes general requirements for housekeeping, guarding floor opening and holes, stairways and ladders.

Friday, July 18, 2003

Welding Hazards8:30 AM (Course #650)
Examines the processes and hazards associated with welding operations. Includes oxy -acetylene, TIG, MIG, and open arc.
Portable Hand & Powered Tool Safety.....10:00 AM (Course #653)
Covers the hazards and regulations associated with small tools. Includes electric, pneumatic, hydraulic, and exp losive-actuated tools.
Air Contaminants.....1:30 PM (Course #656)
Topics covered are the occupational Permissible Exposure Limits (PEL's) for common airborne contaminants and the required methodology of controlling employee exposures to airborne contaminants.
Respiratory Protection.....2:30 PM (Course #659)
Covers permissible practice; definitions; respiratory protection program; selection of respirators; medical evaluation; fit testing; use, maintenance and care of respirators; breathing air quality and use; filters, cartridges and canisters; training and information; program evaluation; and recordkeeping.

NOTE: Complete one form for each registrant attending class. Photo copies are acceptable. Please submit registration by July 9, 2003. No confirmation of registration will be sent.
